Minutes reviewed and approved - motioned by Patti seconded by Dave.

Treasurers Report

[REDACTED]

[REDACTED]

[REDACTED]

Lake Level 889.720 Weir open, screens out - approved June 10 by AB Environment. We must do fish recovery after weir closed July 15. Lake level in decreasing 10 mm/day currently however if further rain the level will be impacted.

ALMS has not been contacted re water testing this year. John had previously managed this and just resigned from Board today due to personal issues. Colin to contact ALMS re water testing this summer.

A question was raised on whether we should do our own lake testing. Dave to talk to Al Sosiak re: number of times and number of location (suggested 2-3 times per year at 8 locations). Colin will lead developing a plan and input will be gather from Al. Carol, Dave, Ed & Colin to set up meeting with Al Sosiak to discuss both the findings of the lake sediment and creek run off testing that we have been doing as well as the plan for further testing in the lake through the summer.

In Lake Treatment Options

Dave has not made much progress with Grad Student at Lake Nakamum. The Grad student is to present his findings in July - Dave will attend as well as others from the board. Assuming findings in report positive we hope to be able to replicate for Pine Lake.

Public Notice Re: Water Act/Run off at Sandy Cove (in Innisfail Province June 15)

Motioned by Colin that the PLRS should respond to the notice against approval of the application for storm run off from Sandy Cove to run into Pine Lake. Seconded by Ed - Carol to write letter and distribute to Board prior to sending.
